Heretofore some efforts have been made by banks to retain deposits after being called, using political pull, etc. This has brought the following letter from Assistant Secretary Malburn, "by direction of the Secretary of the Treas-ury."

direction of the Secretary of the Treasury:

"Whenever calls for the return of all, or any part, of government funds deposited in national banks have been made, it has been the practice of many of the banks to attempt to have the calls withdrawn or modified, by bringing to bear upon the department political or other influence. Such banks tical or other influence. Such banks should bear in mind, however, that government funds are deposited in national banks subject to call of the Secretary, and that the purpose of the Secretary, and that the purpose of the Secretary in making such deposits is to have them in such banks as are able to respond promptly and without questioning such calls. The government's business cannot be properly conducted unless the Secretary is convinced that the funds of the government's vinced that the funds of the govern-ment, deposited on call with the na-tional banks, will be promptly paid into the Treasury whenever in the judgment of the Secretary it is to the interest of the government that such fund; shall be returned to the Treasury. EARLY STRENGTH YIELDS TO DECLINE ALL AROUND

Large Chicago Receipts and Increased First-Hand Consignments Have Bearish Effect on Wheat.

CHICAGO, August 14.-Large receipts here and notices of increased consignments from first hands had a bearish effect today on wheat. At first, however, the market showed some strength as a result of firmness in the Liverpool market and of assertions that no appreciable amounts of British purchases in America had been canceled. Predictions of light world shipments tended also to harden prices at the outset.

The opening, which ranged from 1/2 off to 1/4 up, with September at 1071/2 to issues opened with gains of a point or 107% and December at 106% to 107, was followed by a slight general advance, and then a material decline all around.

Corn Eases Off With Wheat. Corn eased off when wheat turned weak Trade was confined in the main to transactions between pit speculators. After

Lack of buying support was apparent in oats. Better weather for harvesting seemed to inspire general selling by comission houses. Provisions gave way to some extent under the influence of lower quotations for hogs and grain. The volume of busi-

ness was very small.

NEW YORK.

NEW YORK, August 14 .- The cotton market opened steady today at a de cline of 2 to 4 points under scattering liquidation and local selling, which was inspired by further showers in the south, press advices indicating an increasing probability of a contraband declaration by the allies and rather disappointing domestic mill consumption figures for the month of July. SEEKS TO END THE WAR.

Police Arrest Man Who Thinks He Can Aid President Wilson. Alexander Hatch, forty-seven years old,

who roomed at 113 H street northwest the last three days ,was arrested this afternoon by Secret Service Agent Barker and turned over to the police. A charge of insanity was preferred against him, and he was sent to Washington Asylum Hospital for observation as to his mental condition. Hatch told the police that he was a physician, and that he treated the poor freely. He said he was a native of Engterested in the European war and expressed the belief that he could assist the President to bring about a satisfactory termination of it.

Severe Storm Sweeps Jamaica. KINGSTON, Jamaica, August 14.-Details of the damage done by a severe storm which swept over Jamaica yesterday are coming in slowly, as tele-graphic communication with the north side of the island has not yet been re-sumed. It is known, however, that sumed. It is known, however, three lives were lost at Anotto bay the north coast, where considerable material damage was done and many persons were made homeless. A small section of the coast railway was de-stroyed.

FINANCIAL.

The Safest Investments

Are those that do not fluctuate during disturbed conditions of the money or stack market. First deed of trust notes (first mortgages), well secured on real estate in the District of Columbia, constitute "glit edge" investments. They do not depend upon the financial responsibility of individuals or corporations for their stability and are exempt from taxation as personal property. We can supply such investments in amounts from \$500 upward. Send for booklet, "Onscerning Loans and Investments."
